

Looking to fill your psychiatric nurse practitioner
or physician assistant position?

We train NP/PAs in psychiatry

ketchmedical.com

WHAT WE DO

We increase the clinical quality and efficiency of your NP/PA staff by providing comprehensive psychiatric training to

- New NP/PAs we recruit for your open position
- NP/PAs you have recently hired
- Your existing prescribing staff

There are many nurse practitioners and physician assistants with a general medical education and interest in psychiatry, but few with the training and experience needed to actually work in the field. We provide that training so you can hire the prescribing staff you need.

TRAINING SUMMARY

- Online comprehensive training courses, evidence based treatment algorithms, intensive post-placement clinical support
- Training courses developed by academic faculty at major teaching hospital
- Proven results: very satisfied customers, excellent NP/PA retention
